Online Election Inspector Recruitment

The deadline to appoint election inspectors (a.k.a. poll workers) for the 2022-2023 term is quickly approaching on December 31, 2021. To help municipalities recruit and help build their pool of available election inspectors, the Wisconsin Elections Commission is happy to announce the ability to sign up as a poll worker on

<https://MyVote.wi.gov/Become-PollWorker>.

When a prospective election inspector visits MyVote, they will see a promotion on the homepage letting them know the qualifications to become a poll worker and will be asked to enter their address. After entering in their residential address, they will be prompted to enter their name, phone number, and email address in a webform. Once submitted, an email with their information will be sent directly to their municipal clerk at the email address that is on file with the

WEC.

While you still may have prospective election inspectors contact you outside of the MyVote poll worker signup, this new feature will allow you to build your list of potential workers for the upcoming 2022 elections. As we have seen in the past election cycles, it is always helpful to have additional names that can be trained and scheduled to serve your community on election day.

As with any new product, WEC staff want to make sure that this new feature works for you. If you have comments or suggestions on improvements to the online election inspector recruitment tool, please contact the Help Desk at elections@wi.gov.

2021-2022 Webinar Schedule Released

The schedule for the 2021-2022 webinar season was released earlier this month! Topics include Special Voting Deputies, absentee voting, among others. [Click here](#) to learn more and to register today!

Redistricting Office Positions Reminder

Please review your office positions as they currently appear in WisVote; you can do this by clicking on the Office Positions tile. If there are changes to any given position listed there, be it a change in number of seats, or if a representational district is now at large, or vice versa, please provide documentation of the change to the WEC.

Volume I, Issue VII October 22, 2021
